Man. Fury kept his eye on several potential members, as Bruce Banner
struggled with life as the Hulk, the Asgardian Thor appeared on Earth, and
Steve Rogers, AKA World War II hero Captain America, was discovered alive
decades after his apparent death. In the meantime, some of S.H.I.E.L.D.'s
most skilled members, Black Widow (Natasha Romanoff), and Hawkeye (Clint
Barton), were making a name for themselves and impressing Fury.</p>
<p data-aos="zoom-in-right">Once the Asgardian trickster god Loki arrived
on Earth and absconded with the massively powerful object known as the
Tesseract—possessing Hawkeye and turning him into his brainwashed pawn in
the process—Fury found it necessary to finally bring together his potential
super team, calling in Romanoff, Banner, Rogers and Stark. Captain America
and Iron Man, assisted by Black Widow, were able to capture Loki, but during
their flight back to S.H.I.E.L.D., Thor arrived, attempting to bring his
brother back to Asgard to face justice. A fight ensued between Thor and Iron

<p data-aos="zoom-in-right">Loki revealed that it was his plan to be captured all along and triggered Banner to turn into the Hulk. While engaging in a fight with Thor, Hulk nearly destroyed the Helicarrier, before crashing down to Earth. Escaping in the chaos, Loki then ejected Thor from the Helicarrier in his own enclosed cell and retrieved his scepter, killing Phil Coulson with it. Black Widow fought Hawkeye, who had arrived to help Loki, managing to bring her friend back to his true self in the process. Loki continued on to New York where, with the help of the brainwashed Dr. Erik Selvig, he opened a portal into space, unleashing a devastating Chitauri army.</p>

Soon after, Loki was taken back to Asgard by Thor to stand trial for his crimes, and the team went their separate ways—though Stark was motivated to begin turning his tower in Manhattan into Avengers Tower, which could function as the team’s headquarters.</p>

<p data-aos="zoom-in-right">Sometime later, Captain America, Black Widow and Falcon discovered that S.H.I.E.L.D. had been infiltrated from the start, and to its very core, by HYDRA, leading them to destroy S.H.I.E.L.D. completely alongside Nick Fury and Maria Hill. <p data-aos="zoom-in-right">The Avengers, with Avengers Tower as their base of operations, reunited, with the team going on missions to track down and neutralize remaining HYDRA factions. HYDRA leader Wolfgang von Strucker had by this point gained possession of Loki’s scepter and used it to turn siblings Wanda and Pietro Maximoff into super powered operatives known as Scarlet Witch and Quicksilver. Following his emergence from Avengers Tower, Ultron then recruited the Maximoff siblings, who blamed Tony Stark for the death of their parents, after they were killed by a missile Stark created, to sow discord among the Avengers.</p>

<p data-aos="zoom-in-right">Ultron created the perfect body for himself with the Mind Stone—previously hidden inside Loki’s scepter—embedded in his forehead. Ultron was thwarted from uploading his consciousness into the body thanks to Wanda, who realized, just in time, his intention to kill every human being on the planet. Instead, with the Avengers retrieving the body themselves, Thor helped bring it to life inhabited not by Ultron, but by the reconceptualization of Tony’s AI, JARVIS. Thus, Vision was born, proving to the skeptical Avengers that his intentions were pure when he was the first

When Thanos' agents came for the Time Stone that Strange possessed, Strange was taken onboard their ship, with Iron Man and Spider-Man, who had come to help, both stowing away on the ship. Freeing Strange from captivity, Iron Man declared Spider-Man was now officially an Avenger, as the trio traveled to Thanos' long dead home planet of Titan, where they encountered Guardians of the Galaxy members Star-Lord, Mantis, and Drax.</p>

<p data-aos="zoom-in-right">Knowing the Mind Stone needed to be destroyed to keep it from Thanos, a plan was devised to safely remove it from Vision first, which required the technological expertise of Wakanda. With T'Challa agreeing to help, Rogers' expanded group traveled to Wakanda and readied to fight alongside T'Challa himself, Barnes, and the mighty forces of the country, as Thanos sent an army to retrieve the Mind Stone. A massive battle broke out, with the Avengers receiving crucial aid by the timely arrival of Thor, who also finally returned to Earth, having crafted a powerful new weapon, the axe called Stormbreaker, to take down Thanos. Thor and his Guardians of the Galaxy friends Groot and Rocket helped turn the tide, with Thanos' forces beginning to crumble.</p>

<p data-aos="zoom-in-right">On Titan, Iron Man and his allies attempted to not only stop Thanos himself from personally acquiring the Time Stone, but also wrest his Infinity Gauntlet, which he was using to harness all of the stones, from his hand. Unfortunately, even with Thanos' vengeful daughter, Nebula, joining their fight, this plan would fail. When Thanos nearly killed Iron Man, Doctor Strange offered up the Time Stone in exchange for Stark's life. Thanos accepted, and traveled back to Earth.</p>

for Thanos to use the Time Stone to bring Vision back just long enough to

seemingly a success, but the ship's shields failed to protect them from a
massive dose of cosmic radiation. The vessel subsequently crashed back to

<p data-aos="zoom-in-right">All four friends survived the experience, but
Reed found his body had taken on elastic properties that allowed him to change

The group didn't attempt to hide their identities, and they embraced their public personas when the team relocated to New York City and moved into the Baxter Building.</p>

<p data-aos="zoom-in-right">Like many families, the FF had several conflicts with each other. Johnny and Ben developed a rivalry long before they became friends. While cooling off from one of his arguments with the team, Johnny encountered a vagrant who looked remarkably like Prince Namor, the Sub-Mariner. Although Namor had no memory of his previous life as a prince of Atlantis and a World War II hero, Johnny sparked his memory by burning his excess hair away and dropping him in the ocean.</p>

<p data-aos="zoom-in-right">Johnny's stunt spectacularly backfired when Namor discovered Atlantis was in ruins and he declared war on the surface world in retaliation for his loss. The Sub-Mariner became one of the FF's first recurring foes, even though he clearly had romantic feelings for Susan. However, Namor's threat paled in comparison to the emergence of Victor von Doom. Reed's college rival returned as Doctor Doom and forced the team to travel back in time for his plans. Although the FF defeated Doom in their initial encounter, he went on to become their most enduring enemy.</p>

<div class="avengersContentRight">

<p data-aos="zoom-in-right">Doom and Namor teamed up to destroy the
Fantastic Four, but the Sub-Mariner ultimately sided with his rivals when
his would-be-ally betrayed him. The FF made a lot of enemies during their
early adventures, including Red Ghost and the Super-Apes, Rama-Tut, the
Impossible Man, the Molecule Man, and the Puppet Master. Alicia Masters,
the Puppet Master's blind stepdaughter, was used as a pawn in his first strike
against the team. However, Alicia formed a bond with the Thing and a romance
slowly bloomed between the two.</p>

<p data-aos="zoom-in-right">Wizard, Sandman, the Trapster, and Medusa
formed the first Frightful Four as a dark counterpart to the FF. But Medusa
had no memory of her Inhuman heritage and wasn't evil like her companions.
Reed and Sue's relationship continued to advance and they got married in
the Super Hero social event of the season. Even Doctor Doom's attempt to
overrun the wedding with Super Villains couldn't completely disrupt the
Richards' big day.</p>

<p data-aos="zoom-in-right">The Inhuman known as Gorgon eventually located
Medusa and attempted to reunite her with the rest of the royal family. Johnny
quickly became infatuated with Medusa's sister, Crystal, although Black Bolt
and the remainder of her royal relatives disapproved of their burgeoning
relationship. The FF and the royal family ultimately united against the
threat of Black Bolt's brother, Maximus the Mad. In the aftermath, the
Inhumans were cut off from the outside world, leaving Johnny and Crystal
separated and heartbroken.</p>

<p data-aos="zoom-in-right">Soon after, Uatu the Watcher went to great
lengths to hide the Earth from Galactus and his herald, the Silver Surfer.
When the FF confronted the Surfer, they were unable to prevent him from
summoning Galactus to devour the world. Alicia befriended the Surfer as he
recovered from the Thing's attack and allowed him to see the good in humanity.
Meanwhile, Uatu sent Johnny on a mission inside of Galactus' ship to retrieve
the Ultimate Nullifier, a weapon powerful enough to annihilate even the
cosmic giant—and the Earth itself.</p>

<p data-aos="zoom-in-right">Inspired by Alicia, the Silver Surfer turned
against his master and acted in defense of the Earth. In response, Galactus
banished the Surfer behind an impenetrable barrier that prevented him from
returning to the stars.</p>

The Guardians of the Galaxy's origins can be traced to Earth native Peter Quill, AKA Star-Lord, betraying Yondu Udontu and his Ravagers and pre-emptively stealing a valuable Orb they were after. In retaliation, Yondu put a bounty on Quill's head, which mercenaries Rocket and Groot were eager to claim.

Also on Quill's tail was Gamora, a warrior assassin and adoptive daughter to Thanos. She had been loaned out as muscle to the Kree zealot Ronan the Accuser in order to help him track down the Orb. Gamora decided to betray Ronan and Thanos, not wishing the Orb and its potentially lethal power to get in their hands, and made a deal to sell the Orb to a being known as the Collector.

On Xandar, Quill and Gamora battled over the Orb, as Rocket and Groot intervened to detain Quill. During their skirmish, they were all captured by the Nova Corps and arrested. The four were sent to a high security prison, the Klyn, where they were joined by fellow prisoner Drax, whose family had been killed thanks to Thanos and Ronan. While locked up, the wary partners formulated their escape and a plan to sell the Orb and split the profits. In the wake of their breakout, the five outlaws would all come realize the threat Ronan held, and put their own lives on the line to stop him, in the process becoming the Guardians of the Galaxy.

The sale to Tivan disrupted, the group debated what to do with the Orb, with Gamora insisting that it go to the Nova Corp and stay out of Ronan's hands.</p>

<p data-aos="zoom-in-right">When both Ronan and Yondu separately arrived seeking the outlaws and the Orb, a space battle ensued. Gamora implored with Nebula to prevent Ronan from obtaining the stone, but Nebula instead shot her sister's craft, sending Gamora into space while Nebula retrieved the Orb. Quill exited his pod to save Gamora, nearly sacrificing himself in the process.</p>

When Gamora was grabbed by Thanos, Quill reluctantly tried to shoot her, as promised, only for Thanos to turn his blast into harmless bubbles and teleport himself and Gamora away.</p>

<p data-aos="zoom-in-right">On Nidavellir, Rocket used his ship to assist Thor and the dwarf Eitri to create a new axe for Thor, Stormbreaker. Thor nearly died making the weapon, and Groot—until this point acting uninterested in the events around him—used his own arm to make the axe's handle.</p>

<p data-aos="zoom-in-right">As Thanos' prisoner, Gamora learned he also had captured Nebula, and seeing her sister tortured caused Gamora to give Thanos the location of the Soul Stone. On the planet Vormir, Thanos learned he must sacrifice something he loved to gain possession of the Soul Stone, and threw Gamora from a cliff, proving he truly loved her in the same moment he ended her life.</p>

<p data-aos="zoom-in-right">On Thanos' home planet, Titan, Quill, Mantis, and Drax encountered Earth heroes Iron Man, Doctor Strange and Spider-Man and initially battled them, before they realized they were all enemies

of Thanos. Quill came up with a plan to wrest the Infinity Gauntlet from Thanos when he arrived to take possession of the Time Stone from Doctor Strange. Joined by Nebula, the group nearly succeeded in stopping Thanos. When Quill learned Thanos had killed Gamora, his rage caused him to strike out, breaking the hold Mantis had on Thanos, who fought back at full strength. With Strange trading the Time Stone for Iron Man's life, Thanos departed for Earth, with an incredulous Star-Lord asking if they just lost.</p>

<p data-aos="zoom-in-right">On Earth, Thor, Rocket, and Groot fought Thanos' forces alongside several Avengers and their allies in Wakanda, with their arrival turning the tide of the battle. However, when Thanos arrived, he was able to get the Mind Stone, the last of the Infinity Stones he desired. With a snap of his fingers, he ended half the life in the universe, including Groot, who disintegrated into nothingness, along with many others on the battlefield. On Titan, the same tragic fate befell Star-Lord, Mantis, and Drax, leaving Rocket as the last surviving member of the Guardians of the Galaxy.</p>
